

Mini Project

AISHWARYA SS

Prompt #1: Twitter/X Promotional Post

Use Case

Create a professional short promotional Twitter/X post.

Techniques Used

- Role Prompting
- Tone Prompting
- Constraints Prompting

Template Prompt

Act as a social media marketing expert.

Write a Twitter/X post promoting {product_name }.

Target audience: {target_audience}

Tone: {tone}

Requirements:

- Maximum 280 characters
- Include 2 hashtags
- Include CTA (Call-to-action)

Example Style:

Example 1:

“ What if your coding workflow could be 10x faster? Meet the AI assistant built to eliminate repetitive tasks and help developers focus on innovation.”

Example 2:

“Still wasting hours debugging manually? Upgrade your workflow with AI-powered automation designed for modern developers.”

Sample Output

Big news for developers and tech teams!

After months of research and development, we're excited to introduce DevStack AI — a next-generation coding assistant designed to simplify development workflows and boost productivity.

Key Features:

- AI-powered debugging
- Smart code generation
- Real-time collaboration support
- Automated documentation assistance

Our goal is simple: help developers spend less time on repetitive tasks and more time building innovative products.

Built for startups, freelancers, and software teams looking to code faster and work smarter.

Try DevStack AI today and let us know which feature you're most excited to use

Iteration (Before → After)

Version 1 Prompt

Write a Twitter/X post about a promotion of a product launch.

Problem in V1

- Too generic
- No tone guidance

- No hashtag requirements
- Missing CTA

Version 2 Improvements

- Added role prompting for better marketing style.
- Added audience targeting
- Added constraints and CTA
- Included character limit constraints

Prompt #2: Instagram Caption Generator

Use Case

Generate engaging Instagram captions for Travel photos.

Techniques Used

- Persona Prompting
- Style Constraints
- Emotional Framing
- Placeholder Prompting

Template Prompt

Act as a viral Instagram influencer in the {niche} niche.

Write an Instagram caption for a post about {topic}.

Brand/Product: {brand_name}

Audience: {audience}

Mood: {mood}

Requirements:

- Include the emojis

- Use 3–5 relevant hashtags
- Make it aesthetic and relatable
- Keep it under 120 words

Example Style

Example 1

Lost in sunsets and city lights

Example 2

Ocean breeze, salty air, and endless memories

Sample Output

Coffee tastes different when dreams are involved

Starting my mornings with BrewCoffee has honestly changed my routine.
Smooth flavor, rich aroma, and the perfect energy boost to start creating.

If you love coffee that feels premium without being overwhelming, this is your sign to try it.

What's your go-to coffee vibe — strong or smooth?

#CoffeeLover #MorningFuel #BrewCoffee #CafeVibes #DailyCoffee

Iteration (Before → After)

Version 1 Prompt

Write a caption for my travel photo.

Problem in V1

- No location context
- Generic captions
- Missing hashtags
- No tone guidance

Version 2 Improvements

- Added travel vibe
 - Included hashtags requirement
 - Added influencer role prompting
 - Added word limit
-

Prompt #3: Blog Post Intro Generator

Use Case

Generate an engaging introduction paragraph for blogs.

Techniques Used

- Chain-of-Thought Prompting
- Content Prompting
- Role Prompting

Template Prompt

Act as an expert blog writer in the {industry} industry.

Write an enthusiastic introduction for a blog titled:

"{blog_title}"

Target audience: {target_audience}

Tone: {tone}

Desired outcome: {desired_outcome}

Instructions:

1. Start with a relatable pain point
2. Explain why the topic matters

3. Build curiosity

4. Transition naturally into the article

Constraints:

- 150–200 words
- Reader-focused opening
- Build on curiosity

Sample Output

Most beginners struggle with machine learning not because the concepts are impossible, but because the learning path feels overwhelming.

From algorithms and preprocessing to model evaluation, there is simply too much information scattered across the internet. Many learners end up watching tutorials without building real understanding.

That's where structured learning changes everything.

Staying productive while studying online can feel overwhelming. Between assignments, distractions, and deadlines, students often struggle to stay focused. The good news is that productivity isn't about studying longer — it's about studying smarter. In this article, we'll explore practical strategies that can help students improve focus and manage time effectively.

.

Iteration (Before → After)

Version 1 Prompt

Write a blog introduction about machine learning.

Problem in V1

- Generic introduction
- No audience targeting
- Weak flow

Version 2 Improvements

- Added structured flow
 - Added audience context
 - Added tone and readability constraints
-

Prompt #4: Cold Outreach Email

Use Case

Write professional cold outreach emails for networking or sales.

Techniques Used

- Role Prompting
- Personalization Prompting
- Constraint Prompting
- Placeholder Prompting

Template Prompt

Act as a business development executive.

Write a cold outreach email to {Recipient_Name} from {Company_Name}.

Purpose: {Purpose}

Key benefit: {Benefit}

Sender role: {sender_role}

Recipient role: {recipient_role}

Requirements:

- Short and professional
- Personalized introduction
- Clear value proposition

Example Style

Example 1

Hi Sarah, I recently came across your work in fintech and loved your recent campaign.

Example 2

Hello John, Your company's growth in the AI space caught our attention.

Sample Output

Subject: Helping your team save time with AI automation

Hi Alex,

I recently came across your company's work in remote team management and was impressed by your rapid growth.

At Aenexz Tech, we help startups automate repetitive workflows using AI-powered tools.

I'd love to schedule a quick 15-minute call to explore possible collaboration opportunities.

Looking forward to hearing from you.

Best regards,

David

Iteration (Before → After)

Version 1 Prompt

Write a cold outreach email.

Problem in V1

- No personalization
- Weak CTA
- Inconsistent tone

Version 2 Improvements

- Added personalization
 - Added word limit
 - Added business goal context

Subscribe for more AI and coding content!

Iteration (Before → After)

Version 1 Prompt

Give YouTube titles for ML.

Problem in V1

- No SEO direction
- Weak titles
- Missing audience context

Version 2 Improvements

- Added SEO constraints
- Improved clarity
- Added hashtag requirement

Prompt #7: Newsletter Section Generator

Use Case

Generate a newsletter update section.

Techniques Used

- Role Prompting
- Summarization Prompting
- Tone Constraints
- Placeholder Prompting

Template Prompt

Act as a newsletter editor for a {industry} newsletter.

Write a newsletter section about:

Topic: {topic}

Audience: {audience}

Key takeaway: {takeaway}

Tone: {tone}

Requirements:

- Include a informative heading
- Keep it under 250 words
- Reader-friendly
- End with a key insight or action point

Example Style

Example 1

Here's what happened this week in tech

Example 2

Quick updates from our startup community!

Sample Output

AI Tools That Actually Save Time

Here's your weekly startup update

This week, we launched our new analytics dashboard and onboarded 500+ users.

We're also excited to announce upcoming AI-powered features designed to improve team collaboration.

Stay tuned for more updates next week!

Iteration (Before → After)

Version 1 Prompt

Write a newsletter update

Problem in V1

- Too generic
- No structure

- No clear takeaway

Version 2 Improvements

- Added formatting guidance
 - Added audience and takeaway context
 - Improved readability
-

Prompt #8: Ad Copy for social media Generator

Use Case

Create ad copy for Google or Facebook advertisements.

Techniques Used

- AIDA Framework
- Constraint Prompting
- Role Prompting
- Placeholder Prompting

Template Prompt

Act as a digital marketing copywriter.

Generate ad copy for:

Product/Service: {product}

Audience: {audience}

TaskFlow AI is a productivity platform that automates repetitive workflows using artificial intelligence.

Q2. Is TaskFlow AI beginner-friendly?

Yes, the platform is designed with a simple interface suitable for both beginners and professionals.

Q3. Can I use TaskFlow AI on mobile?

Yes, the platform supports both desktop and mobile devices.

Q4. Does it support team collaboration?

Yes, teams can collaborate in real time using shared workspaces.

Iteration (Before → After)

Version 1 Prompt

Generate FAQs.

Problem in V1

- Generic questions
- Poor formatting
- Lack of structure

Version 2 Improvements

- Added support role context
- Included troubleshooting requirements
- Improved realism and clarity

Prompt #10: 7-Day Content Calendar Generator

Use Case

Generate a weekly content plan for social media.

Techniques Used

- Systematic Prompting
- Goal-oriented Prompting
- Constraint Prompting
- Role Prompting

Template Prompt

Act as a social media growth strategist.

Create a 7-day content calendar for:

Brand/Niche: {niche}

Target audience: {audience}

Primary goal: {goal}

Platforms: {platforms}

Content style: {style}

Requirements:

- Include one content idea per day
- Mention post format (Reel, Carousel, Tweet, etc.)
- Include CTA suggestions
- Balance educational and promotional content

Sample Output

Day	Content Type	Topic	CTA
Monday	Carousel	Productivity Tips	Save this post
Tuesday	Reel	Team Workflow	Follow for more
Wednesday	Story	Poll Engagement	Share your opinion

Iteration (Before → After)

Version 1 Prompt

Make a weekly content plan.

Problem in V1

- No platform strategy
- No content variety
- No CTA planning

Version 2 Improvements

- Added strategic structure
- Balanced content types
- Added reusable placeholders
